Cambium Networks Builds Global Defense & Security Momentum

May 14, 2024 at 5:00 AM EDT

Global Defense & Security partners deliver mission-critical broadband connectivity solutions that perform in highly demanding environments

HOFFMAN ESTATES, Ill., May 14, 2024 /PRNewswire/ -- [Cambium Networks](#) (NASDAQ: CMBM), a leading global provider of broadband networking solutions, today announced that its fixed wireless infrastructure solutions continue to evolve and support broadband applications for [national defense](#), [federal and civilian agencies](#), [public safety](#), and [national law enforcement](#). Cambium Networks delivers field-proven wireless connections for military battlefield, border, garrison and infrastructure deployments.

Cambium Networks™

"While secure communication is always essential, the importance of mission-critical defense communications in particular has greatly increased," says Morgan Kurk, CEO of Cambium Networks. "Government agencies need communications that are secure, reliable, and provide necessary bandwidth. The variety of Global Defense & Security contracts recently secured highlights just how many programs depend on Cambium Networks for critical communications."

In the second half of 2023, Cambium Networks GDS was awarded contracts in government, defense and security, including:

- **Global Defense:** Delivered connectivity solutions for border guard, and armed forces applications through our partners:
 - [Aikom Technologies](#)
 - Dene Group
 - [Dicker Data](#)
 - [HyTEC International](#)
 - [MSI](#)
 - [Parsons Corporation](#)
 - [ProjektIP](#)
 - [World Wide Technology](#)
- **National Defense:** Delivered connectivity solutions for training and simulation facilities, rapid deployment connectivity kits, military bases, and video security infrastructure through our partners:
 - [AMA Diversified Construction](#)
 - [Fairwinds Technologies](#)
 - [Northrop Grumman](#)
 - [SAAB Defense and Security](#)
 - [Sentry View Systems](#)
- **Federal & Civilian Agencies:** Delivered video surveillance and communications infrastructure for law enforcement through our partners:
 - [ImmixGroup](#)
 - [Janteq/GDMS](#)
 - [Wesco Anixter](#)

In the second half of 2023, Cambium Networks also launched a series of new products and updates targeted for the Global Defense & Security market, including Cambium Networks' PTP 700 Beam Steering Outdoor Unit with integrated smart antenna, which was launched during the Association of the U.S. Army Annual Conference in Washington, D.C.

About Cambium Networks

[Cambium Networks](#) enables service providers, enterprises, industrial organizations, and governments to deliver exceptional digital experiences and device connectivity with compelling economics. Our ONE Network platform simplifies management of Cambium Networks' wired and wireless broadband and network edge technologies. Our customers can focus more resources on managing their business rather than the network. We deliver connectivity that just works.
