Cambium Networks Corporation Announces Preliminary Third Quarter 2021 Revenues and Reporting Date

ROLLING MEADOWS, ILL., Oct. 21, 2021 — Cambium Networks Corporation (“Cambium Networks”) (NASDAQ: CMBM), a leading provider of wireless networking infrastructure solutions, today announced select preliminary financial results for the third quarter 2021 ended September 30, 2021 and plans to report full financial results on Thursday, November 4, 2021.

Cambium Networks now expects GAAP revenues of approximately \$75 million compared to the previous outlook of \$88-\$92 million provided on August 9, 2021. The change in outlook primarily reflects greater than anticipated global supply constraints impacting shipments of products which we expect to continue into the first half of calendar 2022. Overall demand remains healthy. We enter the fourth quarter 2021 with backlog remaining strong, up 57% year-over-year. Without the supply constraints, Cambium Networks would have been within or above the high-end of the previous third quarter 2021 revenue outlook range provided on August 9, 2021. Net income is expected to be below the low-end of the previous GAAP and non-GAAP ranges. Cash is expected to be approximately \$58 million.
